

Press Release

Paris Air Show 2013,

Tuesday June 18, 2013

Le Bourget, France, June 18th, 2013 – Noranco Inc., a leading Canadian manufacturer of fixed and rotary wing aircraft Aerostructures, Landing Gear components and assemblies, and Sheet Metal fabrications announced today that it has been selected by Labinal Salisbury Inc., a member of the Safran Group, to produce the Cockpit Center Console and Pedestal for the Bell Boeing V-22 Osprey tiltrotor aircraft.

The award is for a multi-year contract to produce production and spares assemblies, and will be produced at Noranco's Pickering division, one of three Noranco divisions in the Greater Toronto Area of Canada, with expertise in producing this level of complex structural assembly.

“The addition of this award to our portfolio is an enormous accomplishment for Noranco, and once again demonstrates our ability to provide our customers with the best cost and quality solutions to meet their demanding schedules”, reported Noranco President and CEO, David Camilleri.

About Noranco Inc. www.noranco.com

Noranco Inc. is a world class, integrated manufacturer and solutions provider to the international commercial and military aerospace sectors, with locations in Canada and the USA.

We provide added value to our customers through a wide range of sophisticated capabilities including design, prototyping, high precision machining, sheet metal fabrication, special processing, assembly, kitting, testing and supply chain management.
