Noranco Inc. Signs Multi Million Dollar LTA with Saab Aerostructures Related to 787 Production

Noranco Inc., a leading Canadian manufacturer of structural, landing gear and avionics components for the global aerospace industry is pleased to announce the signing of a multi-year agreement with Saab Aerostructures to produce components for the Boeing 787 program.

Under the terms of the agreement, Noranco's Pickering Division, located in Pickering Ontario, will produce structural components for Saab Aerostructures in Linkoping, Sweden, with deliveries commencing in 2009 and running through 2012.

The addition of another world class organization such as Saab Aerospace to the Noranco customer base is a significant achievement and we are extremely proud to be working with them in support of the Boeing 787 project.
